

Dreamy Electronica Phenomenon Sienna Releases Debut UK Album 'Japonesque'

Currently living in Norway but raised in Japan, Sienna's 'no rules' approach to creating music is a beautiful reflection of the crossover of cultures we see in the modern world.

Dubbed as "The future sound of London", Sienna brings an un-rivalled organic warmth to her sound using a blurry contrast of multiple styles from Electronica and House to Jazz and Traditional Japanese.

Sienna's career started in 2005 with her debut EP 'Ambience' being released on Norwegian electronica-triphop label 'ABON Records'. Since then the contemporary traditionalist has had her music licensed to 'Phillips Electronics' and even had one of her tracks pre-loaded onto Philips mp3 players and audio devices which were distributed worldwide.

Sienna will be releasing her 1st UK release 'Japonesque' this June on Abon Records. They have also collaborated with the psychedelic legend from Norway Nils, Petter Molvaer and the late British legend Mick Karn, just to name a few...
