**Sienná ::: AMBIENCE ::: A bit oriental new spice on your CD-collection!**

This is something you have not heard yet. Sienná - originally from Japan, but living in Norway - offers you a totally new musical experience for your feet.

A successful blend of experimental soundscape & ambience on housey dance/club-beats spiced up with blues/rock guitars. Her musical style is often described as “oriental version of Goldfrapp collaborates with Underworld & Future Sound of London”.

Moreover, Sienná’s producer is Abon - a discovered talent by Norwegian guitar legend Ronni Le Tekro (TNT, Rypdal & Tekro, Vagabond). He is one of the quite few artists on a wheelchair, but his musical sense is way beyond your standard.

The debut EP :::Ambience::: is released in June 2005 from Abon Records, Norway. The EP is available at diverse large online-store (CDBaby.com, Emusic.com etc) from the middle of June 2005.
